

Ashkon "Akon" Abazary

San Diego, CA | (858) 386-6325 | aabazary@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL PROFILE

Full Stack Web Developer specializing in MERN stack, with senior-level expertise in architecting enterprise applications and building RESTful APIs. Led the creation of a full-stack MERN teaching platform at TalentSprint and delivered a PERN-based MVP for Sound of Earth, enhancing scalability and performance. Certified AWS practitioner and experienced in driving efficient, innovative web solutions. Seeking to apply this background to accelerate development initiatives and improve product quality.

TECHNICAL COMPETENCIES

- **Systems:** Windows, Mac
- **Languages:** JavaScript, TypeScript, Java, Python, HTML5, CSS3, SQL
- **Frameworks & Tools:** React, Node.js, Express.js, Bootstrap, Tailwind, MongoDB, MySQL, PostgreSQL
- **Software & Platforms:** Git, GitHub, GitLab, Heroku, Insomnia, Render, Jest, Playwright

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- CompTIA Project+
- ITIL 4 Foundation
- WGU Front-End Developer
- WGU Back-End Developer
- UCSD Extension Full-Stack Developer

EDUCATION

Western Governors University | *Bachelor of Science, Software Engineering* **Oct 2024 - Feb 2025**

Miramar College | *Associates, Biology* **Oct 2024**

PROFESSIONAL EXPERIENCE

QA Wolf | *Software Engineer in Test* **Nov 2025 - Sep 2026**

- Engineered automated E2E test suites using Playwright and TypeScript to validate complex user workflows across client full-stack applications.
- Maintained and updated test architectures to align with rapid client application updates, preventing regressions and maintaining high test coverage.
- Partnered directly with client engineering teams to provide technical customer support, diagnose UI/API failures, and streamline bug resolution.

Sound of Earth | *Full Stack Developer II(Volunteer)* **Jun 2025 - Present**

- Architected an enterprise-grade app using the PERN stack, enhancing scalability and performance
- Implemented RESTful APIs and reusable React components, improving key feature functionality
- Collaborated on system design, development workflows, and Git version-control strategy, reducing project-management overhead and improving team coordination

TalentSprint | *Software Engineering Instructor* **Feb 2025 - Sep 2025**

- Delivered MERN-focused instruction to 50+ students in a live, project-based format, enhancing their practical coding skills
- Taught React, Node.js, MongoDB, and Express.js through hands-on coding sessions, improving students' proficiency in full-stack development
- Guided full-stack development from database setup using PostgreSQL to deployment strategies on Render, resulting in successful project completions
- Supported students with debugging, architecture, and clean code practices, leading to improved code quality and problem-solving skills

2U/edX/Trilogy | *MERN Teaching Assistant & Grader* **Jan 2022 - Jun 2025**

- Assisted full-stack cohorts in mastering MERN stack concepts and performed live debugging using Node.js, React, and MongoDB, which increased student confidence in building end-to-end applications
- Maintained GitHub repos, enforcing consistent standards and structure, which enhanced project organization and collaboration
- Reviewed and graded MERN projects, providing detailed technical feedback that helped students raise code quality and meet project requirements
- Helped students troubleshoot code during labs and coding challenges, enhancing their ability to solve complex problems

Akon Auto Center | *Owner & Technician* **Aug 2012 - Aug 2022**

- Built and scaled a \$1M+ auto repair business with 8 employees
- Diagnosed complex mechanical issues using structured problem-solving techniques, leading to improved repair accuracy and customer satisfaction
- Trained and mentored staff in technical and customer-facing skills through hands-on workshops and a digital learning platform, which increased team productivity and boosted customer-satisfaction scores
- Managed business operations, client relations, and performance analytics using SQL and Node.js, resulting in streamlined processes and enhanced client satisfaction
